I fully support the proposed bill being voted on on Monday. Something needs to be done to remove people from begging at intersections all over the city of Dover. There also needs to be something done about the homeless people who are walking through business parking lots trying to get money from people just trying to do their daily business. I don't appreciate these people knocking on my car door windows or following me to my car! This is not safe for anyone! The city needs to start looking into ways to help all the homeless in our community. There are plenty of empty buildings that could be renovated into homeless shelters along with providing the necessary tools to help them become a contributing person in our community. I do not feel safe in Dover anymore and I have live here for 63 years! Let use our resources properly and not waste on building that do not need renovations just because they have extra money that must be used or it will.be lost.
